Forward Looking Statements

This presentation contains forward-looking statements (including the earnings guidance/outlook contained herein) within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 and Section 21E of the Securities Exchange Act of 1934, as amended. The words “estimates,” “expects,” “anticipates,” “believes,” “forecasts,” “plans,” “intends,” “may,” “will,” “should,” “shall,” “outlook” and variations of these words and similar expressions identify forward-looking statements, which are generally not historical in nature. Certain of these forward-looking statements relate to the proposed business combination (the “Proposed Transaction”) involving the Company and Mobile Mini, including: expected scale; operating efficiency; stockholder, employee and customer benefits; key assumptions; timing of closing; the amount and timing of revenue and expense synergies; future financial benefits and operating results; and integration spend, which reflects management’s beliefs, expectations and objectives as of the date hereof. Forward-looking statements are subject to a number of risks, uncertainties, including the impacts of the COVID-19 pandemic, assumptions and other important factors, many of which are outside our control, which could cause actual results or outcomes to differ materially from those discussed in the forward-looking statements. Although WillScot believes that these forward-looking statements are based on reasonable assumptions, it can give no assurance that any such forward-looking statement will materialize. Important factors that may affect actual results or outcomes include, among others, our ability to acquire and integrate new assets and operations; our ability to achieve planned synergies related to acquisitions; our ability to manage growth and execute our business plan; our estimates of the size of the markets for our products; the rate and degree of market acceptance of our products; the success of other competing modular space and portable storage solutions that exist or may become available; rising costs adversely affecting our profitability (including cost increases resulting from tariffs); potential litigation involving our Company; general economic and market conditions impacting demand for our products and services; implementation of tax reform; our ability to implement and maintain an effective system of internal controls; and such other risks and uncertainties described in the periodic reports we file with the SEC from time to time (including our Form 10-K for the year ending December 31, 2019), which are available through the SEC’s EDGAR system at www.sec.gov and on our website. Any forward-looking statement speaks only at the date which it is made, and we disclaim any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Measures

This presentation includes non-GAAP financial measures, including Adjusted EBITDA, Net Capex, Adjusted EBITDA Margin, and Free Cash Flow. The appendices at the end of this presentation provide reconciliations of the non-GAAP financial measures used in this presentation to their most directly comparable financial measures calculated and presented in accordance with GAAP. We believe that Adjusted EBITDA provides useful information about operating performance and period-over-period growth and helps investors understand the factors and trends affecting our cash earnings from which capital investments are made and debt is serviced. We evaluate business segment performance based on Adjusted EBITDA, as management believes that evaluating segment performance excluding certain items is meaningful because it provides insight with respect to our intrinsic operating results. We also regularly evaluate gross profit by segment to assist in the assessment of the operational performance of each operating segment. We consider Adjusted EBITDA to be the more important metric because it more fully captures the business performance of the segments, inclusive of indirect costs.

Information reconciling forward-looking Adjusted EBITDA to GAAP financial measures is unavailable to us without unreasonable effort. We cannot provide reconciliations of forward looking Adjusted EBITDA to GAAP financial measures because certain items required for such reconciliations are outside of our control and/or cannot be reasonably predicted, such as the provision for income taxes. Preparation of such reconciliations would require a forward-looking balance sheet, statement of income and statement of cash flows, prepared in accordance with GAAP, and such forward-looking financial statements are unavailable to us without unreasonable effort. Although we provide a range of Adjusted EBITDA that we believe will be achieved, we cannot accurately predict all the components of the Adjusted EBITDA calculation.

However, none of these non-GAAP financial measures should be considered as alternatives to net income or cash flows from operating activities under GAAP as indicators of operating performance or liquidity.
